

ROAD

5th and 6th Ave S

DIET

- Crossing downtown will become *risk-free* for cyclists
- Not reduce road traffic capacity
- Minimize disruption and inconvenience
- Raise the mode share of travel by bicycle
 - Mitigate demand for fossil fuels
- Integrate into the existing pathway infrastructure
- Have no impact on the transportation capital cost budget
 - Enhance the competitiveness of Downtown Calgary
- Provide the shortest and most efficient access to offices
 - Reduce environmental toxins and greenhouse gases
 - Increase public safety with more street activity
